## OUR VISION

- TO BE WORLD'S MOST INNOVATIVE, RELIABLE MANUFACTURER, PROBLEM SOLVER AND SERVICE PROVIDER BOTH IN THE FIELD OF MECHANICAL (STEEL) AND CIVIL INDUSTRY.

## OUR MISSION

- IS TO IMPROVE THE PROFESSIONAL AND WORKABLE ENGINEERING BUSINESS, ECONOMIC WELL BEING AND QUALITY OF LIFE OF ALL STAKEHOLDERS THROUGH PROVIDING THE QUALITY SOLUTIONS.

## OUR CORE VALUES

- EXCELLENCE (QUALITY)
- CARE (RESPECT)
- TEAM WORK
- CUSTOMER SATISFACTION
- COMMITMENT (RESPONSIBILITY)
- DIGNITY (HONESTY)

## OUR SERVICES

- INDUSTRIAL CONSTRUCTION
- PRE-ENGINEERED STEEL BUILDINGS (PEB)
- CONVENTIONAL METAL BUILDINGS (STEEL STRUCTURES)
- MECHANICAL WORKS
- CIVIL CONSTRUCTION SERVICES (BUILDINGS & ROADS)
- RENOVATION AND MAINTENANCE
- CONSTRUCTION OF PETROL PUMPS, GAS STATIONS, OIL BULK STORAGE TANKS
- ARCHITECTURAL, INTERIOR AND EXTERIOR DESIGNING WORKS
- PROJECT MANAGEMENT
- STRUCTURAL REHABILITATION / RETROFITTING

## BUSINESS SECTOR

- INDUSTRIAL
- SUGAR AND TEXTILES
- FOOD AND BEVERAGES
- CHEMICAL AND PLANTS
- OIL & GAS SECTOR
- FERTILIZER
- SOLAR ENERGY (ALTERNATE ENERGY)

## RED STEEL / FABRICATION WORKS

### **Fabrication works:**

Twin Structures have good fabrication facility with aiming to have the sophisticated demand of all kinds of industrial works. Execution of work in Twin Structures workshop / manufacturing facility is totally based on the international standards including ASME, BS, AWS, NACE & ASTM. Safe working environment and applying the specified safety is of primary procedure. Taking into the consideration that safety is for “Minimizing Risk” & for uninterrupted progress. An effective document control system ensures that the products are manufactured according to the specifications & codes. Firm monitoring & control of procedure during fabrication process starting from design , effective raw material , procurement ,welding procedures , qualification of welders to the final inspection / testing stage has been adopted according to the appropriate design codes & standards. Twin’s facility is fully equipped with advanced edge technology and competent working partners with international hands on experience in the job ranging from simple work up and fabrication work to complex manufacturing.

# PRE ENGINEERED STEEL STRUCTURES / MECHANICAL WORKS

## Pre-Engineered Steel Structures.

The design and manufacturing of pre-engineered steel buildings and structures, offering customers a wide range of customized, cost-effective preengineered steel solutions. We offer a wide range of steel solutions tailored to our customers specific needs including preengineering steel buildings, storage solutions/industrial racking systems, and broad array of structural steel products that cover applications in major market segments including oil and gas, heavy industry, infrastructure, highrise buildings, warehouse, factories and complex type structures.

## Mechanical Works.

We deal all kinds of industrial mechanical works and structural works their fabrication and erection at site, design and manufacturing of steel structures, offering customers a wide range of customized, cost-effective solutions. We offer an erection of all mechanical works, structures and giving wide range of steel structures solutions tailored to our customers specific needs including erection of preengineering steel buildings, storage Tanks / Industrial Boiler Installation and Automation systems, and broad array of structural steel products that cover applications in major market segments including oil and gas, heavy industry, infrastructure, high-rise buildings, warehouse, factories and complex type structures.

# PRE ENGINEERED STEEL STRUCTURES / MECHANICAL WORKS

## Civil Machanical Construction Works:

The Civil Construction activities or works are the highest quality taken which involves designing, planning and execution, supply and transportation of materials, site development activities based on hydraulic, environmental, structural and geotechnical engineering.

Our main area of expertise & interest are as follows:

- 1) Industrial Construction
- 2) Commercial Buildings / High Rise Buildings
- 3) Structural Frame Works
- 4) Road Structures and Pavements
- 5) Sewerage and Water Supply System
- 6) Overhead & Underground Water Tanks
- 7) Development of Housing / Residential Sector
- 8) Landscaping and Parks
- 9) Renovation & Maintenance
- 10) Water Treatment Plants
- 11) Grid Stations
- 12) Health and Education Sector
- 13) Parking Shades

## **SOLAR ENERGY / POWER PROJECTS:**

Twin Structures (Pvt.) Ltd. Has Strong JV with ElekMech Solutions. We provided the alternate energy resources and their best optimal designs, engineering solutions, mechanical structural works, and also civil works for the solar panel system and as well as their kind performance work. The electrical scope and commissioning work also done under the umbrella of TSPL. It includes the Off-Grid Energy, On-Grid Energy and Hybrid Solutions with or without net metering accordingly with the client requirements and site conditions.
